GROWING GREEN ASSETS

OUR SERVICES

Servest offers a full suite of golf services, encompassing design, construction, and maintenance, tailored to meet the highest industry standards while delivering outstanding client **value**.

Golf Course Design

Our Golf Course Design service transforms concepts into world-class layouts that seamlessly integrate with the natural landscape. Each course is optimised for playability, aesthetic appeal, and environmental sustainability, incorporating eco-friendly solutions such as water-efficient irrigation systems and erosion control measures.

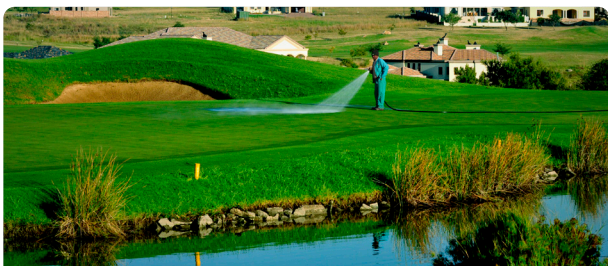

Golf Course Construction

Our golf course solutions blend aesthetic appeal with peak performance, creating greens and fairways that elevate the playing experience. By building courses to the highest industry standards, we help clients attract top tournaments, boost member satisfaction, and enhance their brand as a golfing destination. Servest ensures the seamless integration of bunkers into golf courses, enhancing playability and visual appeal. From site assessments to collaborating with architects for design, the team executes precise excavation, installs durable liners, and selects optimal sand for consistency.

Golf Course Maintenance

Our dedicated team of golf course turf maintenance experts ensures your course remains in peak condition year-round. With over 15 years of partnership with some of the finest golf estates, we combine our passion with innovative techniques to enhance the playability and visual appeal of your greens, fairways, and bunkers. The team employs specialised mowers to keep greens impeccably smooth, ensuring consistent ball roll.

Consulting and Audits

Servest's consulting services optimise golf course performance and sustainability. Using tools like drone mapping and soil analysis, we deliver actionable insights to enhance resource efficiency and long-term growth. From maintenance strategies to course improvements, our expert guidance helps unlock the full potential of your green spaces.

WHY CHOOSE US?

At Servest, we provide **exceptional** golf course services that transform green spaces into assets of enduring value. Adhering to FIFA, FIH, and PGA standards, we are trusted by golf estates, clubs, and developments across South Africa and beyond. Our commitment to quality, sustainability, and innovation ensures your course meets world-class standards while delivering long-term value. Here's why Servest is the perfect choice for your golf course:

Expertise You Can Trust

Our team comprises certified greenkeepers, experienced turf managers, and construction specialists with a proven track record in golf course design, construction, and maintenance. With over 15 years of experience, we bring unparalleled knowledge and precision to every project, ensuring that your course meets international standards for playability, aesthetics, and durability.

Innovative Technology

We employ the latest innovations to deliver precise and efficient solutions. Drone mapping allows us to conduct detailed site assessments, while GPS-guided machinery ensures accuracy during construction and maintenance. Our advanced soil analysis tools enable us to customise treatment plans that promote turf health and optimise resource use, giving your course a competitive edge.

Proven Safety and Quality Standards

Servest is committed to upholding the highest standards of safety, health, and quality across all our projects. With over 70 years of SHEQ (Safety, Health, Environment, and Quality) expertise and certifications including ISO 9001 and ISO 45001, we ensure safe practices, reliable execution, and superior results that give you peace of mind.

Proven Track Record of Excellence

Servest has worked with some of South Africa's most prestigious golf courses, maintaining and enhancing their world-class reputation. Our clients trust us to deliver vibrant greens, smooth fairways, and flawless bunkers that attract members, tournaments, and positive reviews alike.

Sustainability at the Core

Sustainability is embedded in everything we do. We use eco-friendly materials, water-efficient irrigation systems, and organic treatments to minimise environmental impact while maximising turf health and longevity. As an ISO 14001-certified company, we help you achieve your green goals while enhancing the natural beauty of your course.

Comprehensive Solutions for Long-Term Success

From initial design to ongoing maintenance, we provide end-to-end services that cater to every aspect of your golf course. Our holistic approach ensures that each element – greens, fairways, bunkers, and drainage systems – is built and maintained to perform at its best. This comprehensive focus guarantees consistent quality and seamless operations year-round.

Client-Centric Approach

We understand that every golf course is unique, and so are our clients' needs. Our team works closely with you to develop tailored solutions that align with your vision, budget, and goals. From the initial consultation to project completion and beyond, our hands-on approach guarantees a smooth and rewarding partnership.

Partnering for Growth

At Servest, we don't just build or maintain golf courses – we build long-term partnerships. By investing in the success of our clients, we ensure that your course thrives, creating exceptional experiences for players while maximising operational efficiency and value.

FIFA & PGA Standards

Our world-class playing surfaces adhere to FIFA and PGA standards, elevating athlete performance, attracting professional teams and increasing venue bookings for large-scale events.

UNLOCKING VALUE FOR OUR CLIENTS

Servest delivers unparalleled **value** to clients by offering a comprehensive range of golf course maintenance and enhancements services tailored to meet the unique needs of each course. From meticulous bunker construction and renovations to ensure playability and durability, to precise tee box levelling that creates stable and consistent starting points for players, every detail is handled with expertise and care.

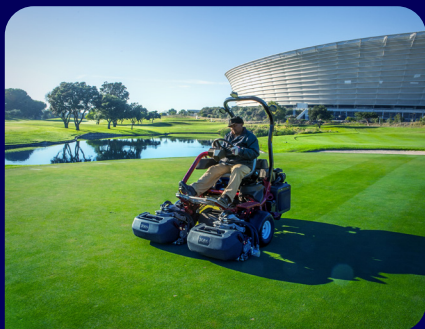

Green maintenance focuses on achieving smooth, flawless surfaces for optimal play, while fairway grooming and soil aeration promote healthy turf and improve overall course resilience. Drainage systems are designed and maintained to prevent water accumulation, and advanced irrigation ensures the right balance for vibrant, lush greens. Additionally, proactive divot repairs, pest control, and fertilisation strategies help preserve the aesthetics and functionality of the course.

By integrating sustainable practices, such as using eco-friendly materials and advanced machinery, Servest not only enhances the immediate quality of golf courses but also ensures their long-term performance. Through this comprehensive approach, Servest maximises the value of each project, creating world-class courses that deliver exceptional experiences for players while optimising operational efficiencies for clients.

CERTIFICATIONS

CLIENT SUCCESS STORIES

Metropolitan Golf Course Maintenance

Regular fairway grooming, greens care, and soil aeration are central to the maintenance strategy. Tee boxes are precisely levelled, and bunkers are raked and replenished with sand for consistent play. Pest control and irrigation ensure lush, vibrant turf, enhancing the overall playing experience.

Paarl Golf Club Maintenance

Servest ensures tee boxes at Paarl Golf Club remain level, vibrant, and stable, providing golfers with consistent and enjoyable starts to their rounds. Uneven surfaces are expertly regraded and restored, with regular aeration, mowing, and irrigation promoting healthy turf and longevity.

Divots are promptly repaired, and tee markers adjusted to distribute wear evenly, ensuring durability and aesthetic appeal. This meticulous care enhances performance, safety, and the visual quality of the course, setting a high standard for player satisfaction and course maintenance.
